A co-created Dance deepening retreat with ziraat concentration(spiritual ecology)

Dances of Universal Peace, sufi practices, music

Murshida Davesha Victoria MacDonald is a senior teacher in the Sufi Ruhaniat International, a Ziraat Experienced Farmer, and a long time Buddhist practitioner. The yearning to know herself as Nature, rather than separate from Nature, has been the driving force of her life.

As a Senior Mentor of the Dances of Universal Peace she has traveled internationally teaching and sharing the Dances. Her major focus for the last 20 years has been seeding the Dances in South America, encouraging local leadership and mentorship. Her teaching and practice arises from “The Garden Path” and our deepest question...How will we live?

Dancers, Dance Musicians, and Mentored Dance Leaders will be invited in teams to share dance sessions in between the Ziraat teachings and meditations. The opportunity to share this deep practice with dedicated practitioners of the Dances of Universal Peace is precious.

Please fill out the registration form to let the Registrar know if you will attend as a mentored Dance leader, a Dance musician or a singer/dancer.
